A Wonderful Assortment  
Of WOMEN'S COATS

Our purchases this season have been more lavish than ever before. Months ago we placed extraordinarily large orders with the best foreign manufacturers. We not only brought over an unsurpassed variety of styles, but we provided abundantly for many women who are unable to secure garments ready-made in the usual coat stock. In some lines our sizes range up to 52 bust measure.

Our collection of imported coats is the largest shown in America, and practically all of the models are exclusively ours, a fact most interesting to discriminating women. These garments have been designed by the best of European fashion artists, and they show their origin by their graceful lines and beautiful finish.

Our stock of American-made Coats is even more extensive in the variety it presents. Most of the models have been copied from best foreign coats. The price-groups are as follows:
